# FTP TRANSFER INSTRUCTIONS

## Note:

- Links on this page are active and should connect automatically.
- Using the browser upload is not as fast and reliable as using FTP Client Software. If you get errors or a blank page, try hitting 'Refresh'.
- Try switching the "Use Passive Mode Transfers" preference in your FTP client software if you cannot connect.
- Please use [Stuffit](#) (Mac) or [WINZIP](#) (PC) to compact your files into a single file prior to upload.
- Use a descriptive file name (ie: yourname\_date\_company.sit).
- Password encrypted, individualized FTP accounts available at no charge. Call for details.
- For more info or technical support, call Eric at (510) 595-2222.
